### **SAUBER PETRONAS Racing Truck & Trailer**

Unerlässliche Grundausstattung aller Teams in der Königsklasse des Motorsports sind zuverlässige Truck-Trailer-Gespanne, die an den Rennstrecken unter anderem als zusätzliche Werkstätten und Büros zum Einsatz kommen. Diese Truck-Trailer-Kombinationen setzt auch SAUBER PETRONAS ein. Das Schweizer Privatteam verfügt über drei Trucks für das Rennteam und zwei weiteren für das Testteam.

Auf über 30 Jahre im Rennsport kann Peter Sauber zurückblicken. Bereits 1993 wagte er nach einer intensiven Vorbereitungszeit den Sprung in die Formel 1.

SAUBER PETRONAS greift als Zugmaschine auf den Mercedes-Benz Actros zurück, der in puncto Wirtschaftlichkeit, Sicherheit, Technik und Fahrkomfort überzeugt. Darüber hinaus erfüllt er auch die hohen Erwartungen bezüglich Design und Umweltverträglichkeit. Zu Recht wird der Actros seit einigen Jahren für seine wirtschaftliche und leistungsstarke Performance gelobt. Die hohe Zuverlässigkeit durch den Einsatz modernster Systeme, Wartungsintervalle von 100.000 km und mehr sowie eine kostengünstige Ersatzteillogistik sind weitere überzeugende Argumente, die für die Zugmaschine sprechen. Der zweiachsig Sattel-auflieger dient dem Transport der Rennfahrzeuge sowie von Ersatzteilen und Werkzeugen zu den Rennstrecken. Weiterhin sind die Gespanne auch für den Boxenaufbau unerlässlich, da auch die Boxeneinrichtung mit den Trucks transportiert wird und dieser Bereich ebenso zu den Zusatzaufgaben der Trucker zählt wie die Bereitstellung von Material oder die Mitarbeit beim Boxenstopp während der Rennen.

### **SAUBER PETRONAS Racing Truck & Trailer**

A piece of indispensable basic equipment for all teams in the motorsport Kings Class is a reliable truck-trailer combination that can be used at race tracks as an additional workshop and office. These truck-trailer combinations are also used by SAUBER PETRONAS. The independent Swiss team has three trucks for the racing team and two more for the test team.

Peter Sauber can look back on over 30 years in motor racing. Back in 1993 after a period of intensive preparation he ventured to make the leap up into Formula 1.

SAUBER PETRONAS relies on the Mercedes-Benz Actros as tractor, with its proven track record for economy, safety, engineering and driver comfort. In addition it meets the highest requirements as regards design and environmental-friendliness. The Actros has been justifiably praised over the years for its economical and powerful performance. A high level of reliability based on state-of-the-art systems, maintenance intervals of 100,000 km plus, together with cost-effective parts logistics are even more persuasive arguments in favour of this tractor. The four-wheel semitrailer serves to transport the racing cars, together with their spares and tools, to the racing circuit. These combinations are also indispensable for the pit servicing box as the box is also transported with the truck and the driver's duties likewise include the preparation of the equipment or pit stop assistance during races.

## Verwendete Symbole/Used Symbols

Bitte beachten Sie folgende Symbole, die in den nachfolgenden Baustufen verwendet werden.

**Veuillez noter les symboles indiqués ci-dessous, qui sont utilisés dans les étapes suivantes du montage.**

**Si prega di fare attenzione ai seguenti simboli che vengono usati nei susseguenti stadi di costruzione.**

Huomioi seuraavat symbolit, joita käytetään seuraavissa kokamisvaiheissa.

**Legg merke til symbolene som benyttes i monteringsinstruksene som følger.**

Proszę zwrócić na następujące symbole, które są użyte w poniższych etapach montażowych.

Daha sonraki montaj basamaklarında kullanılacak olan, aşağıdaki sembole lütfen dikkat edin.

Kérjük, hogy a következő szimbolumokat, melyek az alábbi építési fokokban alkalmazásra kerülnek, vegyék figyelembe.
