

For Immediate Release: July 28, 2021

New! DR10 Factory Team Front Bulkheads

#72006 DR10 FT Aluminum Front Bulkhead, 25°, blue

#72007 DR10 FT Brass Front Bulkhead, 25°

Factory Team introduces two new optional front bulkheads for the DR10, SR10, and the RB10. Available in aluminum or brass, these options help improve the durability of your Team Associated ride as well as improving performance. Use these two new front bulkhead options to tune the weight distribution to suit your needs as a driver and the conditions you are driving on.

Features

- Aluminum Front Bulkhead weighs 14g
- Brass Front Bulkhead weighs 45g
- Adds more steering on acceleration
- Helps prevent the front wheels from lifting
- These are direct bolt-on replacements for the stock #91359 bulkhead
- Fit the DR10, SR10, and the RB10
