

efficient drivetrain

- Easy-access differential with 0, 1, 2, and 3mm height adjustment inserts included. (RC10 B6.3 comes with a gear differential). Height adjustment inserts allow drive shaft alignment through all ride height and axle height configurations
- Rear hub assembly with aluminum vertical ball stud camber link mount and axle height inserts for precise roll center adjustment
- Front wing mount and front wing included to increase downforce and front grip
- Integrated 30mm fan mount (fan not included) to prevent motor fade due to overheating
- 69mm CVA bones for reduced bone plunge and minimized friction at drive pin
- The symmetric rear arms with improved geometry and stiffness can be flipped to allow a "split" for rear shock mounting position. Arms are available in 73mm and 75mm lengths (73mm included)
- Outer rear hinge pin is captured with bolt head and lock nut for increased durability
- Steel electronics and steel under-servo plates included for improved mass balance and lower overall center of mass
- 5mm aluminum clamping wheel hexes
- Lightweight aluminum one-piece top shaft and gear
- Body designed with lower center of mass improves handling on high-grip surfaces (clear body and wing included)
