

For Immediate Release: June 18, 2024

## Team Associated -4mm Chassis Option for the RC10B7 and B7D

A new chassis length option is now available from Team Associated for the RC10B7 and RC10B7D. This chassis is a good tuning option for further wheelbase tuning. The short chassis generally provides better rotation and more forward bite, which is beneficial across a variety of track conditions and layouts.

| UPC          | Part No. | Description            | MSRP    | MAP     | Available                |
