

For Immediate Release: June 28, 2022

New! Factory Team Low Friction X-Rings

#81187

#81498

New FT Low Friction X-Rings are the perfect upgrade for your 1:8 scale buggy or truck! Both X-Ring sets are made with custom tooling for an exact fit and use the same high-quality material as used in our popular 1:10 X-rings.

- Use **#81187 3.4 x 1.9mm** size in the shocks to increase performance and longevity before needing a rebuild.
- Use **#81498 5.8 x 1.9mm** size in the differentials to improve internal gear mesh and increase performance of the vehicle.

Fits: RC8B4, RC8B4e, RC8T3.2, RC8T3.2e, and older RC8B3 generations.
