

For Immediate Release: July 25, 2022

New! FT Carbon Fiber Front Shock Tower for the RC8B4 and RC8B4e

This new FT carbon fiber front shock tower is ideal for reducing weight and lowering the overall CG of the vehicle, especially when used in combination with #81506 FT rear shock tower.

Routed from durable 5mm woven carbon fiber, this shock tower is a great upgrade to increase performance of the RC8B4 platform!

Fits the RC8B4 and RC8B4e. (Does not fit the B3.2 or T3.2.)
