

TEAM ASSOCIATED RC8B4 FAQ

What parts are new?

- The features list is LONG. A complete version of all new parts is on the AE website.

What else is new and cool?

- All suspension arms are made from the same material as the B3.2 'HD' suspension arms.
- The front and rear gearbox cases are made from the same 'HD' material as the B3 gearbox case
- Several parts are now made from the same material as used in our 1/10 rod ends.
 - All rod ends. The rear camber ends also have a flat spot on them to use with the FT wrench to make them a little easier to build. Plus better thread engagement
 - The brake and throttle linkages
 - Spring cups and shock rod ends
- The thread engagement interface on the steering blocks has been improved substantially over the B3
- B4 steering bellcrank nuts are slightly taller to reduce steering rack interference with bellcranks
- The internal diff gears were updated to fill in the pockets on the backside. This is a running change to spare parts HTC gearset. LTC gears were not updated.

What carries over from B3.2?

- See RC8B4 Nations 'pinned' post for comprehensive list.

Can I convert B3.2 to a B4?

- Technically yes. But it's more expensive than a kit. There is a conversion list on RC8B4 Nation

Will graphite arm inserts be available?

- Yes. They, along with G10 material, are on the website now.
- The lower arm inserts fit on the top or bottom of the arm. You will need to purchase M2.5x6 or M2.5x8mm mounting hardware separately

What size is the servo horn?

- 20mm
 - Use Reedy #27123, #27122, or other 20mm flat servo horn.
- An 18.5mm servo horn will work if desired as a tuning option

Have a question about the manual?

- Check the online manual. There were some updates that happened between 1st batch manuals and release

Will there be long battery tray?

- Eventually. There is a 3D printable file on the AE website under B4e Manuals & Setups tab.

What bodies fit?

- RC8B3.2 bodies will fit RC8B4 with slight trimming to the front of the body.
- RC8B4e will only fit the kit body unless you change to the side guards from RC8B4

Can you send me one?

- No ☺
- Call your LHS to pre-order!
