- NEVER leave batteries unattended during charging.
 - Do NOT disassemble, crush, short circuit or expose to flame.
 - Do NOT exceed the maximum recommended charge rate.
 - ALWAYS confirm charger settings match this battery prior to charging, or use the battery.
 - If any battery or cell is damaged in any way, do NOT charge, discharge, or use the battery.
- While charging, always place the battery in a fire retardant/fire proof container and on a non-flammable surface such as concrete.

REMOVE flammable items and combustible materials from the charging area.

Use ONLY a Traxxas iD equipped LiPo charger with this battery. DO NOT charge with a NiMH only charger.

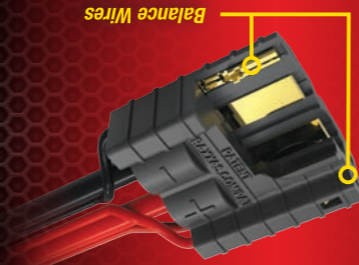

Read and follow all manufacturer's charging and handling instructions, warnings and precautions before use! LiPo Batteries pose a severe risk of fire if not properly handled and charged per the instructions. Never allow children under 14 years old to charge batteries without the supervision of a responsible, knowledgeable adult.

WARNING! CAUTION! DANGER!

Traxxas Exclusive!
The balance wires are integrated into the main connector for fast, easy, and rugged connection to Traxxas LiPo chargers. Fragile balance wires, balance boards, and tiny connectors are eliminated. A Traxxas LiPo charger is required for charging this battery.

Specifications:
Configuration: 4s1p
Continuous Discharge: 25C (125A)
Max Burst Rate: 50C (250A)
Watt Hours: 74.00
Charge Rate: 1C (5.0A)
Max Charge Rate: 3C (15.0A)
Dimensions (mm): 155x34x45
Weight: 18oz (510g)
