

# STOIKE

1:8 SCALE 4WD ELECTRIC BUGGY  
TR8E CHASSIS

*Team*

## Notiz

Danke das Sie sich für das Produkt Stoke E Offroad Buggy von Team C entschieden haben. Diese Anleitung hilft Ihnen beim Zusammenbau des Stoke E. Bitte nehmen Sie sich Zeit und lesen Sie sich die Anleitung genau durch.

Wir verbessern kontinuierlich unsere Produkte, so können die tatsächlichen Teile von den Abbildungen abweichen. Bitte schauen Sie zuerst auf unsere Homepage ob es neue Versionen von den Anleitungen oder neue Tips gibt, bevor Sie das zusammenbauen beginnen.

This manual is written in german language only. If you need a manual in your language please visit our website or contact your distributor!

Diese Anleitung wurde in deutscher Sprache verfasst. Sollten sie eine Anleitung in ihrer Sprache benötigen, besuchen sie unsere website oder kontaktieren sie ihren Vertriebsagenten.

Questo manuale è stato scritto in tedesco. Se avete bisogno del manuale nella tua lingua, si prega di visitare il nostro sito web o contattate il proprio distributore.

Este manual está escrito en aleman. Si necesita el manual en su idioma, por favor visite nuestro sitio web o contacte con su distribuidor.

Ce manuel est écrit en langue allemand. Si vous avez besoin d'un manuel dans votre langue s'il vous plaît visitez notre site web ou contactez votre distributeur!

Deze handleiding is geschreven in het duits taal beschikbaar. Als u een handleiding in uw eigen taal kunt u terecht op onze website of neem contact op met uw distributeur!

## Generelle Information

### **DAS IST KEIN SPIELZUG!**

Nicht geeignet für Kinder unter 14 Jahren ohne Aufsicht eines Erwachsenen.

Dies ist ein Hochleistungs Fahrzeug und darf aus Sicherheitsgründen nicht auf öffentlichen Straßen, in überfüllten Gebieten und umweltfreundlichen Bereichen oder in der Nähe von Kindern und Tieren gefahren werden.

Dieses Modell enthält rotierende Teile und Teile die während des Betriebes heiß werden können. Um Schäden und Verletzungen zu vermeiden ist Vorsicht beim Betrieb des Fahrzeuges geboten.

Dieses Produkt erfordert möglicherweise Reperatur- und Wartungsarbeiten.

Dieses Produkt ist durch Gewährleistung auf Material Defekte abgedeckt. Unfallschäden oder Wartungsschäden werden nicht von der Gewährleistung abgedeckt.

Batterien müssen in einwandfreiem Zustand sein und sollten immer voll geladen sein.

Nitro Modelle dürfen nur außerhalb von Gebäuden gefahren werden. Inhalieren von Auspuffabgasen kann zu gesundheitlichen Schäden führen.

Bewahren Sie Chemikalien unzugänglich von Kindern auf.

Stellen Sie sicher das Ihr Fahrzeug und das nötige Equipment in einwandfreiem Zustand ist, damit ein sicherer Betriebszustand gewährleistet ist und Sie Spaß am fahren haben.

## Notice

Thank you for purchasing this Stoke E Offroad Buggy by Team C. This manual shows instructions and tips to built and maintain your Stoke E. Please take some time to read through to get familiar with the shown steps.

We continually improve our products, due to that, actual parts my be different to the illustrations. Please check our website for the latest versions manuals and tips before you start to built this model.

This manual is written in english language only. If you need a manual in your language please visit our website or contact your distributor!

Diese Anleitung wurde in englischer Sprache verfasst. Sollten sie eine Anleitung in ihrer Sprache benötigen, besuchen sie unsere website oder kontaktieren sie ihren Vertriebsagenten.

## Generall Information

**THIS IS NOT A TOY!**

Not suitable for children under 14 years of age without adult supervision.

This is a high performance vehicle, for safety reason don't run on public streets, in crowded areas, environmentally areas or near children or animals.

This model contains rotating parts and parts which become hot during operation. Care must been taken to avoid damage or injuries.

This product may require some assembly and routine maintance.

This product is covered by warranty based on material defectives. Crash damage or maintenance failures are not covered under warranty.

Batteries should be used in good condition only, and need to be fully charged.

Nitro models should be driven outside of buildings only. Inhaling exhaust gases could cause health damage.

Keep chemicals stored out of the range of small children.

Make sure your model and equipment is in perfect condition before you use it, to ensure savety and fun while driving.

# Funkfernsteuerung Einstellung

Ein neuer NiMH oder LiPo Akku muss vor Benutzung erst geladen werden. Informationen zum Laden finden Sie in der Ladegerätleitung.

Richten Sie die Fernsteuerung wie unten angegeben ein!

## ● Start

- 1 Batterien einlegen.(Fernsteuerung)
- 2 Antenne ausziehen.(Fernsteuerung)
- 3 Akku anschließen.
- 4 Antennenkable ausziehen.(Empfänger)
- 5 Trimmungen auf neutrale Position stellen.(Fernsteuerung)
- 6 Einschalten.(Fernsteuerung)
- 7 Einschalten.(Fahrtenregler)
- 8 Sicherstellen das die Servos Befehle von der Fernsteuerung erhalten.(Fernsteuerung)

## ● Ende

- 9 Ausschalten.(Fahrtenregler)
- 10 Ausschalten.(Fernsteuerung)
- 11 Antenne einfahren.(Fernsteuerung)

## Benötigte Werkzeuge

● Spitzzange

● Pinzette

● Schmiermittel

● Schrauben  
Sicherungslack

● Sekundenkleber  
oder Reifenklebe

● Kugeldifferential Fett (klar)

● Karosserielochbohrer

● Molybdem Fett (schwarz)

● Sechskant-  
schlüssel

● Kreuzschlüssel

Um exakte Löcher zu bohren.  
(1mm bis 15mm) Löcher können gebohrt  
werden.

● Seitenschneider

● Karosserieschere &  
Schmiergelpapier

● Cuttermesser

Zur Karosserie ausschneiden!

# Transmitter Preparation

A new Ni-MH battery must be charged before it is used. Refer to the charger instruction manual for charging.

Set up the radio control system as indicated below ◦

- **Start**
  - 1 Install batteries.(Transmitter)
  - 2 Extend the antenna.(Transmitter)
  - 3 Connect the battery
  - 4 Extend the antenna.(Receiver)
  - 5 Center the trims.
  - 6 Switch on.(Transmitter)
  - 7 Switch on.(Receiver)
  - 8 Make sure the servos are in command.
- **Finish**
  - 9 Switch off.(Receiver)
  - 10 Switch off.(Transmitter)
  - 11 Retract the antenna(Transmitter)

## Tools required

● Needle Nose Pliers

● Awl

● Grease

● Screw Cement

● Instant Glue

● Ball differential Grease(Clear)

● SP KINFE EDGE REAMER

● Wire Cutters

● ROUND CUTTER&SANDER

● Molybdenum Grease(Black)

● Hex Wrench

● Hex Wrench

No need to pre-drill precise holes  
(1mm to 15mm) can be drilled

● Sharp Hobby knife

For trimming bodies!

## Allgemeine Grundlagen

### Ein bisschen Theorie ist notwendig!

Sie wollen nun endlich Ihr RC Car losknallen lassen - was müssen sie dabei beachten?

#### **Wichtig: Batterien oder Akkus der Fernsteuerung sollten immer voll geladen sein!**

Batterien oder Akkus nie ganz leer fahren. Warum? Es kann Ihnen dann passieren das die Fernsteuerung ausgeht, das Sendesignal zum Empfänger abreißt und Ihr RC Car sich selbst ständig macht - das kann teuer werden!

Fahrvorbereitung:

Achten Sie bitte immer darauf das Sie **zuerst die Fernsteuerung einschalten und dann erst den Fahrtenregler**. Bocken Sie das Fahrzeug auf, damit sich die Räder frei drehen können. Schalten Sie jetzt den Sender ein danach schalten Sie den Fahrtenregler ein. Überprüfen Sie jetzt die Fahrtauglichkeit der Lenkung links/rechts und Gas/Bremse.

Machen Sie jetzt zuerst ein paar langsame Runden, damit Sie sich mit dem Fahrzeug vertraut machen bevor Sie Vollgas geben. Denken Sie immer daran - **ein RC Car ist wirklich kein Spielzeug** - Sie können sich selbst und andere damit schwer verletzen.

Wenn Sie zuerst das Fahrzeug einschalten kann es passieren das der Empfänger ein anderes Signal empfängt und das Fahrzeug von alleine davon fährt - **und das kann sehr gefährlich und auch teuer werden!**

#### **Bitte beachten Sie immer - Don't drink and drive!**

Thema Wasser:

Es wird sicherlich vorkommen, dass Sie ab und zu bei Geländefahrten durch eine Pfütze fahren. Bedenken Sie hier, dass der Empfänger, der Motor und Akku gegen Feuchtigkeit sehr empfindlich sind. Fahren Sie nicht unnötig in große Pfützen und lassen Sie Ihr Fahrzeug bei starkem Regen zu Hause. Ein Wasserspritzer am falschen Ort und Sie können Ihre Ausfahrt beenden und sich schonmal überlegen bei welchem Modellbauhändler Sie Ersatzteile nachbestellen.

Thema Wiese:

Fahrten auf Wiesen mit langen Gräsern und Stopeln haben leider auch Ihre Tücken. Das Gras kann sich in den Antriebswellen verwickeln. Dies führt zu einer unnötigen und zusätzlichen Belastung des Motors und er kann überhitzen.

Thema Sprünge:

Das gehört klar dazu und genau deshalb kauft man sich einen Hyde oder Stoke usw. Ist für diese Fahrzeuge auch überhaupt kein Problem, wenn man nicht allzu leichtsinnig ans Werk geht. Damit Sie nach einem Sprung wieder auf den Rädern landen müssen Sie mit der Fernsteuerung arbeiten. Wenn Sie merken das die Nase vom Fahrzeug immer mehr in Richtung Boden schaut dann geben Sie Gas damit sich die Nase wieder anhebt. Wenn Sie Gas weg nehmen wird sich die Nase in Richtung Boden senken.

#### **Dies machen Sie aber bitte erst wenn Sie sich mit dem Fahrzeug vertraut gemacht haben und auf eigene Verantwortung!**

## General informations

### A bit of theory is necessary!

You want your RC car is finally going to pop - what they need to consider?

#### **Important: Batteries of the radio control should always be fully charged!**

Batteries never run completely discharged. Why? The radio control can assume, the transmission signal to the receiver breaks off and the car is driving without control.

Driving preparation:

#### **Please always make sure that you turn on the radio control first and then the esc.**

Jack up the car so the wheels can rotate freely. Now switch on the radio control and then the esc. Now check the roadworthiness of the steering left / right and throttle / brake.

Now take a few slow laps, so that you become familiar with the car before you open full throttle. Notice - **the RC car isn't a toy** - you can hurt yourself and other people.

When you first turn on the vehicle it may happen that the receiver is receiving another signal and the vehicle is driving off alone - **and this can be very dangerous and also expensive!**

#### **Pay attention - Don't drink and drive!**

Theme water:

It will certainly happen that you driving through a puddle. Remember here that the receiver, motor and battery are very sensitive. Don't drive through big puddles and when it's heavy rain let your car at home.

Theme grass:

The grass can become tangled in the drive shafts. This leads to an unnecessary and additional load on the motor and it can overheat.

Theme jumps:

This is exactly why you buy a Hyde or a Stoke. This is not a problem for those cars when you do it right. If you notice that the nose of the car looks more and more towards the ground you step on the throttle so that the nose lifts again. When you take gas off, the nose will go downwards.

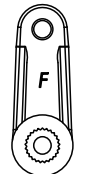

#### **Please do this when you are familiar with the car and at your own risk!**
