Experience the versatility and advanced design of the 1/18 Gelände 2 for yourself. Packed full of capability, the Gelände 2 is ready for any challenging condition. Put your off-road driving to test and see why the G2 is unmatched in its class!

G2 is built with quality materials and craftsmanship. It can maneuver extreme descents and climbs with ease. The new R5 1/24 Mini Cast Transmission provides power out to the all - new 1/24 Yota II axles.

The core of the G2 is built for the true off-road enthusiast. From customized options to tried and true performance. From emergency and expedition vehicles, to daily drivers and down and dirty off-road rigs. It can pull off many looks, you will be able to customize your G2 and have it fit with any identity.

The G2 comes with double triangulated 4 link front and rear. The servo is mounted on the chassis out of view for a more scale appearance.

Are you ready for your off-road experience?

GELÄNDE II

The G2 Chassis features a simple front mounted electronics plate for easy mounting of the XR2 Micro ESC/Receiver combo.

The G2 includes a set of RC4WD Micro Ultimate Scale Shocks. Designed for ultimate scale looks and ultimate performance. The shocks are machined from billet aluminum and internally sprung.

The All New G2 Chassis is a machined billet aluminum ladder frame with an all link suspension design, scale shock hoops, chassis servo mounts and hard body mounting points for the ultimate in strength.

The G2 includes a set of RC4WD Black Stamped Steel 1.0 Stock Beadlock Wheels. Featuring a super tough black finish, aluminum internal locking ring and popular 6 lugs design.

Every G2 needs a tough set of rock grabbing tires and the included Dirt Grabbers in X3 Compound deliver the traction as well as perfect scale looks in just the right size.
